

# Cylinder Screen

---

## Specification

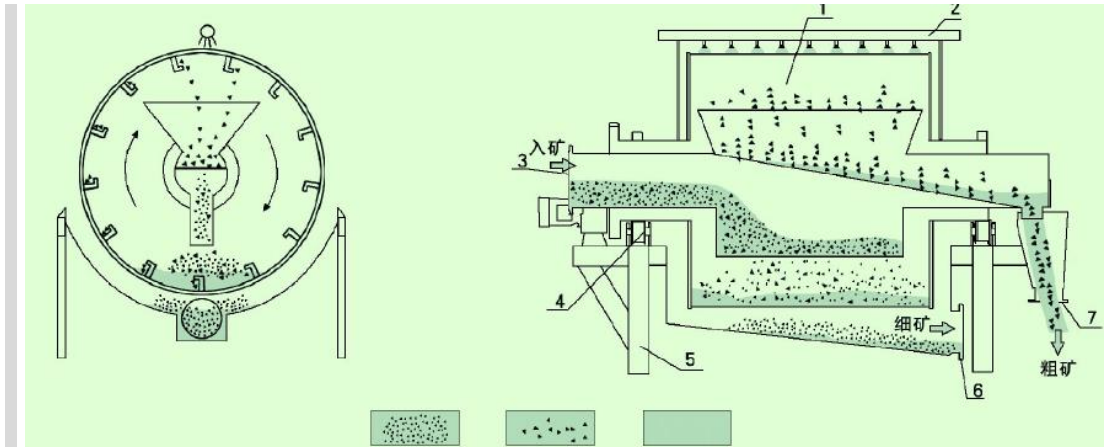

English Version  
For reference only

**General Introduction** Cylinder screen basically is used in high gradient magnetic separation section, metallurgy, mining, chemical industry and other abrasive medium and small size mineral's separation

- Features**
- Simple structure, low failure rate
  - Simple operation and easy to maintain
  - No compact, small vibration, low noise, long service life
  - Screen is easy to replaced ,through changed the screen to adjust the classification of particle size

**Separation Instruction**

**Specification Table**

Model	Drum Size (D x L)	Process Capacity	Slurry Capacity	Drum Revolving Speed	Motor Power	Dimension	Unit Weight
	mm	ton/h	m <sup>3</sup> /h	r/min	kW	mm	kg
YTS-810	800 × 1800	10-15	20-80	6	1.5	2400x1300x1500	1300
YTS-1210	1200 × 1000	30-60	100-300	5	1.5	2774x1556x1640	1900
YTS-1415	1420 × 1500	50-75	180-400	4	2.2	3779x1810x1990	3050
YTS-2019	2000 × 1900	100-150	280-500	3	4.0	4480x2500x2750	4800
YTS-2529	2500 × 2900	150-280	500-800	2.5	7.5	5800x3300x3900	9900
